Summary

Senior UI/UX Designer and **Product Designer** with 6+ years of experience creating consumer-facing experiences and complex enterprise SaaS and OTT platforms across web, mobile, tablet, Smart TV and set-top boxes. Skilled in end-to-end product design, translating user needs, complex business logic and permission-driven workflows into intuitive interfaces through user research, information architecture, interaction design, prototyping and usability testing. Experienced in developing reusable UI components and collaborating with Product, Engineering and QA to deliver consistent, implementation-ready experiences across devices. Combines visual design expertise with AI-assisted workflows to support ideation, rapid prototyping and design documentation, with a focus on usability and scalable product experiences.

Core Skills

Design & Prototyping Tools: Figma, Figma AI, Figma Make, Adobe XD, Sketch, InVision, Adobe Illustrator, Adobe Photoshop, Balsamiq

UX Research & Strategy: User Research, User Interviews, Surveys, Usability Testing, Customer Journey Mapping, User Personas, Competitive Analysis, A/B Testing, Information Architecture (IA)

Research & Analytics: Research Study Design (Objectives, Timelines, Sample Plans), Heuristic Evaluation, Quantitative & Qualitative Synthesis, Jobs-to-be-Done (JTBD), NPS & CSAT, Behavioral Analytics (Mixpanel, Microsoft Clarity)

UI/UX Design: User Experience Design, User Interface Design, Interaction Design, Design Systems, Wireframing, Interactive Prototyping, Responsive Design, Visual Design

Brand & Visual Design: Visual Identity & Brand Guidelines, Campaign Creative (Social/Digital Ads), Video/Motion Editing, 3D Illustration, Agency/Freelancer Oversight

Platforms & Product Experience: Enterprise SaaS, OTT, Web Applications, Mobile Applications (iOS/Android), Tablet, Smart TV, Set-Top Box (STB), DTH, Admin Dashboards, Role-Based Access Control (RBAC)

AI, Data & Domains: AI Product Design, Data Visualization, UX Writing & Microcopy, E-commerce/Marketplace, D2C

Accessibility & Localization: WCAG Accessibility Standards, Localization, Internationalization (i18n) Design Practices

AI-Assisted Design & Productivity: Figma MCP, Claude, ChatGPT, GitHub Copilot, Lovable; AI-Assisted Layout Generation, Rapid Prototyping, UX Flows, Information Architecture, Validation Logic, Design Documentation, Design-to-Code Handoff Support

Development Fundamentals: HTML, CSS

Collaboration & Delivery: Agile/Scrum, Cross-Functional Collaboration (Product, Engineering, QA), Stakeholder Communication, Design Handoff, Client Communication, Problem-Solving, Time Management

Leadership & Mentorship: Design Mentorship, Hiring & Recruitment Interviews, Product Roadmap Influence

Facilitation & Collaboration Tools: Workshop Facilitation, Design Reviews & Critique, Miro, FigJam

Work experience

Irdeto Technologies, Noida, IN — 2024-06 - present

Senior UI/UX Designer

- Led end-to-end UX design for an enterprise OTT operator console across web, mobile, set-top box (STB) and direct-to-home (DTH) platforms, covering complex operational and administrative workflows.
- Architected user flows and interfaces for 20+ modules, including content management, entitlement control, device management, and system configuration.
- Translated complex business rules into structured information architecture and task flows to reduce cognitive load for enterprise and administrative users.
- Defined role-based, permission-driven interactions to support secure access and handling of critical system actions.
- Extended design work to consumer-facing experiences across mobile, tablet, STB, Smart TV and OTT platforms.
- Collaborated with product, engineering, and QA teams to deliver sprint-ready designs and support implementation of scalable, reusable UI components.
- Integrated AI-assisted tools, including Figma AI, Figma MCP, Claude and ChatGPT, into ideation, UX flow development and design documentation.
- Planned and ran research studies, defining objectives, timelines and sample plans, and synthesized quantitative and qualitative data (including surveys) into personas, Jobs-to-be-Done frameworks and journey maps.
- Owned NPS and CSAT programs and used behavioral analytics (Mixpanel, Microsoft Clarity) and A/B testing to validate design decisions and identify friction in D2C/e-commerce experiences.
- Brought user research and design rationale into roadmap discussions with Product and Engineering to influence product priorities.
- Mentored designers on the product design team and led hiring interviews and recruitment to build design capability.

- **Case Study:** Designing Channel Creation (150+ Fields, One System)
- **Case Study:** Redesigning the Enterprise Audit Experience

---

Dogma Systems India, Noida, IN **2022-08 - 2024-06**

UI/UX Designer

- Designed MyRent, an enterprise vehicle rental platform supporting short-term and long-term rentals, with multi-step booking workflows.
- Conducted end-user interviews, developed user personas and analyzed competitors to inform product features and design decisions.
- Created responsive wireframes, interactive prototypes and detailed design specifications to communicate user flows and support development handoff.
- Adapted rental and booking experiences across websites and applications for FeliRent, AutoOne, MyRent App, Giffi, Moventur and Gesmo.
- Partnered with developers and QA teams to resolve implementation gaps and maintain consistency between approved designs and delivered user experiences.
- Designed e-commerce/marketplace customer journeys, including Search, Product Detail Page (PDP), Cart and Checkout.
- Defined brand guidelines and visual identity and led campaign creative for social and digital ad placements.
- Produced video/motion content and 3D illustration assets; oversaw agency and freelancer output.

ACIL Technologies, Gurgaon, IN **2020-12 - 2022-07**

UI/UX Designer

- Led UI/UX design for internal dashboards and administrative applications, addressing complex workflows and interface requirements.
- Established sitemap structures and navigation patterns to organize product interfaces and support clear user journeys.
- Evaluated task flows through usability testing and refined designs to improve usability and task completion.
- Resolved complex UX challenges through iterative interface design, supporting client requirements and satisfaction.

Digi NoVo Solution **2020-07 - 2020-11**

Graphic Designer

Produced digital banners, logos and social media assets aligned with brand guidelines, maintaining a consistent visual identity across digital platforms.

Riddhi Siddhi **2020-03 - 2020-06**

Graphic Designer

Developed and refined raster images and vector graphics, delivering campaign-specific visual assets aligned with **design** requirements.

Education

University of Rajasthan **2015-07 - 2018-08**

Master of Arts in Public Administration & Political Science (Post Graduation)

University of Rajasthan **2012-06 - 2015-07**

Bachelor of Arts (Graduation)

Achievements

- Redesigned an 11-step manual audit investigation into a streamlined 6-step contextual workflow, cutting the steps operators retrace by more than half.
- Built a single 150+ field channel creation system reused across Create, Update, Delete, and Recording flows, replacing four separate, inconsistent processes.
- Unified design patterns across 20+ enterprise admin modules into one reusable design system, cutting redundant design-to-development rework.
- Delivered consistent design quality across three companies and five platform types, from enterprise SaaS consoles to consumer-facing rental and OTT apps.

Certifications

- Diploma in Graphic Designing, University of Rajasthan
- Diploma in Web Designing, University of Rajasthan
- Certificate in Visual Design, Udemy
- Certificate in UX Designing, Udemy
