PROFESSIONAL SUMMARY

Product Designer and UI/UX Designer with 6+ years of experience designing complex, data-heavy Enterprise SaaS and OTT platforms across Web, Mobile, Tablet, Smart TV, Set-Top Box (STB) and DTH ecosystems. Skilled at translating complex business logic and role-based, permission-driven workflows into intuitive, scalable user experiences through structured information architecture, wireframing, interactive prototyping and usability testing. Experienced in end-to-end product design, from device-side end-user screens to enterprise admin consoles, with strong cross-functional collaboration across Product, Engineering and QA to ship sprint-ready, production-grade designs. Proficient in AI-assisted design and delivery workflows (Figma AI, Figma MCP, ChatGPT, Claude, GitHub Copilot, Lovable) to accelerate ideation, documentation, prototyping and design-to-code handoff. Passionate about combining UX research and data-driven design to improve usability, reduce user error and drive measurable product outcomes.

NOTABLE ACHIEVEMENTS

- Redesigned an 11-step manual audit investigation into a streamlined 6-step contextual workflow, cutting the steps operators retrace by more than half.
- Built a single 150+ field channel creation system reused across Create, Update, Delete and Recording flows, replacing four separate, inconsistent processes.
- Unified design patterns across 20+ enterprise admin modules into one reusable design system, cutting redundant design-to-dev rework.
- Delivered consistent design quality across three companies and five platform types, from enterprise SaaS consoles to consumer-facing rental and OTT apps.

CORE SKILLS

- Design & Prototyping Tools:** Figma, Figma AI / Figma Make, Adobe XD, Sketch, InVision, Illustrator, Photoshop, Balsamiq
- UX Process:** User Research, User Interviews, Surveys, Usability Testing, Customer Journey Mapping, Personas, Competitive Analysis, A/B Testing, Information Architecture (IA), Design Systems, Wireframing, Interactive Prototyping, Responsive Design
- Platforms:** Enterprise SaaS, OTT, Web App, Mobile App (iOS/Android), Tablet, Smart TV, Set-Top Box (STB), DTH, Admin Dashboards, Role-Based Access Control (RBAC)
- AI-Assisted Design & Productivity:** Figma AI / Figma Make and Figma MCP (rapid layout generation, design-to-code handoff), Claude and ChatGPT (UX flows, IA, validation logic, documentation), GitHub Copilot (development handoff support), Lovable (AI-assisted rapid prototyping)
- Development Basics:** HTML, CSS
- Collaboration & Delivery:** Agile/Scrum, Cross-Functional Collaboration (Product, Engineering, QA), Stakeholder Communication, Design Handoff, Client Communication, Problem-Solving, Time Management

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer

Jun 2024 to Present

Irdeto Technologies | Noida, India

- Led end-to-end UX design for an enterprise OTT operator console spanning Web, Mobile, STB and DTH platforms.
- Designed 20+ complex modules including content management, entitlement control, device management and system configuration workflows.
- Worked on device-side design, delivering front-end, end-user screens across STB, Mobile, Tablet, Smart TV and OTT platforms.
- Translated complex business rules into structured UX flows, reducing cognitive load and improving usability for enterprise and admin users.
- Designed role-based and permission-driven workflows to ensure secure handling of critical system actions.
- Partnered cross-functionally with Product, Engineering and QA to deliver sprint-ready designs and scalable, reusable UI components.

- Leveraged AI-assisted tools (Figma AI, Figma MCP, Claude, ChatGPT) to accelerate ideation, UX flow design and design documentation.
- **Case Study:** [Designing Channel Creation \(150+ Fields, One System\)](#)
- **Case Study:** [Redesigning the Enterprise Audit Experience](#)

UI/UX Designer

Aug 2022 to Jun 2024

Dogma Systems India | Noida, India

- Designed web and mobile interfaces for transport management and vehicle rental systems.
- Conducted end-user interviews, persona creation and competitor analysis to guide product feature decisions.
- Created responsive wireframes, interactive prototypes and detailed design specifications for development handoff.
- Partnered with developers and QA teams to ensure accurate, seamless implementation of user flows.

UI/UX Designer

Dec 2020 to Jul 2022

ACIL Technologies | Gurgaon, India

- Led UI/UX design for internal dashboards and admin panel applications.
- Defined sitemap structures and applied UX best practices across product interfaces.
- Conducted usability testing and iterated on designs to improve task flows and completion rates.
- Delivered creative solutions to complex UX challenges, boosting client satisfaction.

EDUCATION

- University of Rajasthan, Master of Arts in Public Administration & Political Science (Post Graduation)
- University of Rajasthan, Bachelor of Arts (Graduation)

CERTIFICATIONS

- Diploma in Graphic Designing, University of Rajasthan (2019)
- Diploma in Web Designing, University of Rajasthan (2020)
- Certificate in UX Designing, Udemy (2020)
- Certificate in Visual Design, Udemy (2019)
